RE: Temporary Food Booths - Fire Extinguishers, Propane Tanks and Fire Retardant Canopy

As of April 21, 2016 If you are cooking at your booth during the event you are required to have a 5 pound ABC fire extinguisher. For cooking with a deep fat fryer you are required to have a Class K fire extinguisher and recommend a fire retardant canopy. These are not required now but will be required when the new regulations are in place.

The Fire Department will inspect propane tanks on the day of the event; you no longer have to sign off from the Fire Department before the event date.

Thank you for your cooperation.

Gina McNeely
Director of Public Health
